RG104 E-1 Box 134 Apr-July 1885

The Mint of the United States at Philadelphia, Pa.,

MELTER AND REFINER'S DEPARTMENT,

18th July —, 1885.

Sir,

I have tested the Heat of the Silver Melting Room, during the time of casting 3 Pot-fuls of Metal (about 10,000 oz.) and I found the temperature of the air in the vicinity of the furnaces and during the castings to be from 110° to 118°, the last while two furnaces were open at once.

Very Respectfully
I. C. Booth

Hon. D. M. Fox
Superintendent

NARA RG104, Entry 1, Box 134

[Abstract:] Has tested the heat of melting room.

The Mint of the United States at Philadelphia, Pa.,
Melter and Refiner's Department,
July 18, 1885

Sir,

I have tested the Heat of the Silver Melting Room, during the time of casting 3 pot-fuls of metal (about 10,000 oz.) and I found the temperature of the air in the vicinities of the furnaces and during the Castings to be from 110º to 118º, the last while two furnaces were open at once.

Very Respectfully,
Jas. C. Booth

Hon. D.M. Fox
Superintendent
